

- **Scan Tool (for pulling DTC faults and running diagnostic tests):**
 - We recommend the following scan tools from Ford Rotunda SPX for reading Ford and ROUSH CleanTech DTC codes (P Codes) and running basic testing and diagnostics on the Ford engine, Ford transmission and ROUSH CleanTech Propane Autogas Fuel System.
 - Interface Tool - VCM Kit (www.motorcraftservice.com)
 - Recommended: [VCM II kit w/ CFR Pendant](#)
 - Product ID: 164-R9807
 - Laptop-Based Software Licensing
 - <http://www.motorcraftservice.com>
 - A generic scan tool can also be used for basic fuel system diagnostics.
- **Jiffy-Tite quick connect tools- 3/8” and 1/4” sizes**
 - <http://alleganytoolco.com>
 - Call for 1/4” size: 716-785-1510
- **Fuel pressure gauge 0-500 PSI and hose to adapt to -4 fitting (same as R-12 A/C fitting)**
 - There are many aftermarket fuel pressure tools available. An A/C gauge set is the best option as it is compatible with propane and A/C refrigerant, and most service centers will already have this tool in their possession.
 - An R-12 A/C gauge set can be purchased from a local tool supplier.
- **Mechanical Fuel Pressure adaptor**
 - Connects to the fuel rail to allow a manual gauge reading.
 - Available through ROUSH CleanTech - (734) 779-7777.
