

**UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
2012 MODEL YEAR  
CERTIFICATE OF CONFORMITY  
WITH THE CLEAN AIR ACT OF 1990**

**OFFICE OF TRANSPORTATION  
AND AIR QUALITY  
ANN ARBOR, MICHIGAN 48105**

**Certificate Issued To:** Roush Industries, Inc.  
(Alternative Fuel Converter)

**Certificate Number:** CRIIT06.27HL-007

**Effective Date:**  
06/13/2012  
**Expiration Date:**  
12/31/2012

**Byron J. Burkner, Acting Division Director**  
Compliance Division

**Issue Date:**  
06/13/2012  
**Revision Date:**  
N/A

**Test Group Name:** CRIIT06.27HL

**Evaporative/Refueling Family Name:** CRIIF0250LPG

**Applicable Exhaust Emission Standards:** Federal Tier 2 Bin 8

**Applicable Evaporative/Refueling Standards:** Federal Heavy-Duty 2-Day Evap (1.75 grams),  
Federal Heavy-Duty 3-Day Evap (1.4 grams)

**Engine Displacement:** 6.2 Liters

**Exhaust Emission Test Fuel Type:** LPG

**Full Useful Life Miles:** Exhaust Emissions: 120,000 miles

**Full Useful Life Miles:** Evaporative/Refueling Emissions: 120,000 miles

**Models Covered:** Roush Industries, Inc.: F250 2WD PICKUP LPG, F250 2WD Bed Delete LPG, F350 4WD Incomplete LPG, F350 4WD LPG  
Incomplete LPG, F350 2WD LPG, F350 4WD Bed Delete LPG, F350 4WD Incomplete LPG, F350 4WD LPG

Vehicle models covered by this certificate were originally produced by Ford Motor Company in model year 2012 to operate on gasoline or E85 and have been modified by the above named manufacturer to operate on LPG.

Ford test group CFMXT06.27HL, evap family CFMXXF02.50NBS

Pursuant to section 206 of the Clean Air Act (42 U.S.C.7525) and 40 CFR Parts 85, 86, 88, 1037, and 600 as applicable, this certificate of conformity is hereby issued with respect to test vehicles which have been found to conform to the requirements of the regulations on Control of Air Pollution from New Motor Vehicles and New Motor Vehicle Engines (40 CFR Parts 85, 86, 88, 1037, and 600 as applicable) and which represent the new motor vehicle models listed above by test group and evaporative/refueling emission family, more fully described in the application of the above named manufacturer. Vehicles covered by this certificate have demonstrated compliance with the applicable emission standards as more fully described in the manufacturer's application. This certificate covers the above models, which are designed to meet the applicable emission standards specified in 40 CFR Parts 85, 86, 88, 1037, and 600 as applicable at both high and low altitude as applicable.

EPA is issuing this certificate subject to the conditions and provisions of 40 CFR 86.1848(c), and 40 CFR 1037 as applicable.

This certificate covers only those new motor vehicles or vehicle engines which conform, in all material respects, to the design specifications that apply to those vehicles or engines described in the documentation required by 40 CFR Parts 85, 86, 88, 1037, and 600 as applicable and which are produced during the 2012 model year production period stated on this certificate of the said manufacturer, as defined in 40 CFR Parts 85, 86, 88, 1037, and 600 as applicable. The manufacturer shall obtain the approval of the California Air Resources Board (in the form of an executive order issued by the California Air Resources Board) prior to introducing any vehicle covered by this certificate into commerce 1) in the State of California, or 2) in a State that, under the authority of Section 177 of the Clean Air Act, has adopted and placed into effect the California standards to which this test group has been certified.

Catalyst-equipped vehicles designed to be operated on gasoline or flexible fuel are equipped with an emission control device which the Administrator has determined will be significantly impaired by the use of leaded fuel. This certificate is issued subject to the conditions specified in 40 CFR 80.24. Catalyst-equipped vehicles designed to be operated on gasoline or flexible fuel, otherwise covered by this certificate, which are driven outside the United States, Canada, Mexico, Japan, Australia, Taiwan and the Bahama Islands will be presumed to have been operated on leaded fuel resulting in deactivation of the catalysts. If these vehicles are imported or offered for importation without retrofit of the catalyst, they will be considered not to be within the coverage of this certificate unless included in a catalyst control program operated by manufacturer or a United States Government Agency and approved by the Administrator.

In the case of completely assembled vehicles, this certificate of conformity covers only vehicles which are completely manufactured prior to January 1, 2013. Normally incompletely assembled vehicles (such as cab chassis) may be completed after this date, provided that the basic manufacturing (including installation of the emission control system) was completed prior to January 1, 2013. This certificate does not cover vehicles sold, offered for sale, or introduced, or delivered for introduction, into commerce in the U.S. prior to the effective date of the certificate.
